

Whitehill Primary School

19th April 2017

Dear Parents and Carers

Whitehill Science Week W/c 24th April

The Whitehill Science Week will take place next week from Monday 24th April. We have planned for an exciting week of activities, lessons and some fun things to do at home.

All years will be having Science lessons in the afternoon. We will be sending some activities to try at home, including melting chocolate and making coke and mentos rockets.

On Thursday there will be a science production for all years from reception through to year 6.

Lastly, on Friday we are inviting all children to come into school with 'Mad Scientist Hair'. We are asking children to think about what their hair would look like after a scientific explosion using accessories, wigs or changing the colour (as long as it can be washed out). No haircuts or shaved heads please!

Yours sincerely

Mr Wadsworth
Science Lead

Headteacher: M D Moaby BEd(Hons)
